

OEN BOARD VOTING RESULTS

AUGUST 7, 2022

Greetings,

By a unanimous vote, Joe, AA7JS, was approved as the new Net Operations Manager, effective immediately. Congratulations Joe!

Max, KJ7FEE, who was approved earlier as the new Net Data Base Manager position, will also be assuming duties immediately related to maintaining of the Net Data Bases and distributing updated rosters with other files each month.

Thanks again for stepping up, Gentlemen.

There was minority voting (3) to postpone an update to the OEN Bylaws highlighting the revised structure. As a result, the update will move forward as proposed. However, in deference to those who opposed, I will circulate the revised draft for comments and improvements until we have a consensus. This should be my last task as the Net Manager/Secretary. I will just be assisting Joe and Max going forward.

Those net controls who have not yet sent your new reports for August can send them to me (as soon as you can, please).

Regards & 73's From W7HLR,

*Larry Ross Hiatt*

Net Manager/Secretary

W7OEN - The Oregon Emergency Net
